INTELLISEE SYSTEM OVERVIEW

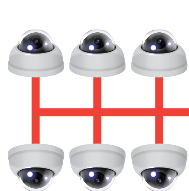

IntelliSee®

Smarter surveillance for a safer world.

EXISTING CAMERAS + INTELLISEE = SMART PREVENTION

Turn existing surveillance cameras into proactive safety tools that protect against a growing range of threats.

YOUR EXISTING
CAMERAS

ALERTS

IMPROVED SAFETY, EXISTING INFRASTRUCTURE

IntelliSee works with nearly all types of cameras but please confirm the following prior to implementation:

- Camera make/model compatibility
- Views are undistorted & unobstructed
- Views are within distance guidelines
- If fish-eye, dewarped views are available
- Individual streams are accessible for multi-view cameras

OTHER CAMERA CONSIDERATIONS:

- Angles, lighting, and other conditions may impact detections
- PTZ cameras are compatible but can affect masking
- Low resolution can impact detection distances
- Analogue cameras require encoding

SECURE SAFETY

- 01 On-premise service residing within your firewall
- 02 Configures to your cyber-security standards & configurations
- 03 Encrypted communications, secure ports, penetration tested
- 04 No personally identifiable information (PII) or protected health information (PHI)
- 05 U.S.-based hardware, software, hosting, support, & security

CAMERA PREFERENCES

- ONVIF compliant
- Undistorted views
- RTSP access
- 480-4k+ resolution
- 6FPS or higher

NETWORK CONSIDERATIONS

- IntelliSee connects to cameras directly or via bridges
- Network design can impact appliance quantities, sizes
- Consumption varies but is typically **~1MB PER CAMERA**
- Internet / port access (within your policies) is needed

SAFETY WITH PRIVACY

- IntelliSee does not store video
- No PII or PHI is stored or used
- No facial recognition or other controversial practices used
- On-site appliances reside securely within your firewall

INTELLISEE'S AI APPLIANCES

As a U.S.-based company driven to make our world safer, IntelliSee uses U.S. hardware, components, servers, and suppliers.

Each appliance is preloaded with IntelliSee's software and is thoroughly tested prior to shipping. Installation is quick and easy within a typical data center / data closet (desktop hardware is available upon request).

- Place in secure, climate controlled locations with available rack space
- Co-locate near your camera networks to minimizes consumption
- Confirm power and bandwidth availability
- Tools, monitor, keyboard, and internet will be needed (mounting rails are supplied)

	OPERATING SYSTEM	CPU	GPU	RAM	STORAGE	RU'S	PHYSICAL SIZE	POWER
8-16 CAMERA SYSTEMS	Windows 11 Pro	AMD Threadripper Pro 5955WX	NVIDIA GeForce RTX A5000	128GB	1TB NVMe	4U Rack	18"x13.25"x17"	1300W
32-64 CAMERA SYSTEMS			AMD Threadripper Pro 5955WX					1600W

*Hardware and operating system specifications are subject to change; Contact your IntelliSee representative for the most current.

AN OPEN, COMPLEMENTARY SYSTEM

Natively, IntelliSee sends text, email or phone-call alerts but consider sending them to other downstream systems.

- Leverage **24/7/365** RapidSOS alert monitoring & first-responder notification.
- Use internal Messaging & E-mail platforms (e.g. SMTP / email server).
- Bookmark footage, “pop” footage and more by sending alerts to your Video Management System (VMS)
- Manage workflows, messaging, procedures via your Mass Notification Systems (MNS) and Public Address (PA) Systems

A growing number of integrations methods are enabled with future capabilities continually added at no additional cost

CUSTOMER-CENTRIC SAFETY

- **NO COMPLEX MENUS** via a single fee platform
- **NO COST UPGRADES** as the platform expands
- **SEAMLESS OTA UPDATES** to ensure models and other features are the latest
- **PARTNER & DIRECT TIER 1-3 SUPPORT** provided within your annual fee
- **USER-FRIENDLY**, Windows-based application
- **AUTOMATED OFFSITE BACKUPS** for simple expansions & recovery

PEACE OF MIND FOR ADMINS

- **DAILY EMAILS** for system & camera status
- **DISCONNECTED CAMERA** alerts if transmissions are stopped or disrupted
- **TEMPERATURE** alerts if thresholds exceeded
- **SYSTEM & ALERT LOGS** to track activities, incidents, & settings and more
