

INTELLISEE ACTIVE MONITORING

PROACTIVE SAFETY & SAVINGS VIA YOUR EXISTING CAMERAS

IntelliSee®

Smarter surveillance for a safer world.

SECURITY CAMERAS DON'T PREVENT TRAGEDIES, THEY RECORD THEM. GET PROACTIVE WITH INTELLISEE

Unmonitored Cameras

IntelliSee Active Monitoring

Security cameras are everywhere but most are only used after an incident...but what if you could use them to prevent harm before it occurs? ***Now you can with IntelliSee***

IntelliSee transforms your safety and security profile for a smarter, safer tomorrow:

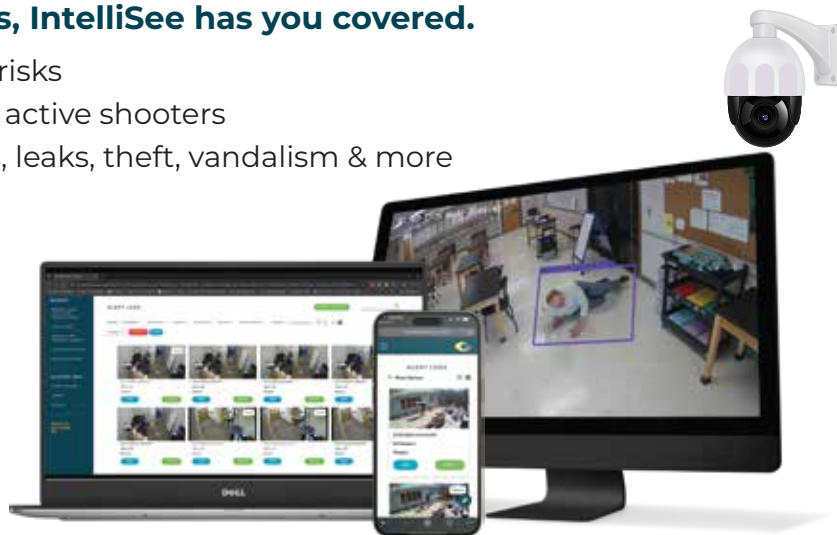

- Real-time, 24/7/365 active monitoring & situational awareness using your existing cameras
- Proactively protect lives, reputations, & finances from a growing range of threats
- Enhanced safety without added overhead, costly upgrades, or extra personnel

From everyday incidents to critical threats, IntelliSee has you covered.

- A single platform protecting against multiple risks
- Protect against rare but catastrophic risks like active shooters
- Prevent common but costly incidents like falls, leaks, theft, vandalism & more

Save money with IntelliSee

- Improved safety and efficiency using your existing assets and people
- Safe organizations save...proactively avoid claims, disruptions, costly lawsuits and more

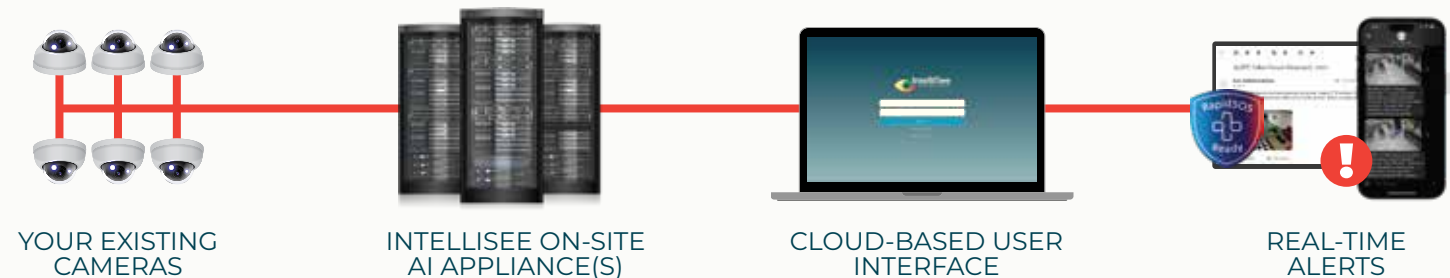

IntelliSee.com

TRANSFORM YOUR SECURITY APPROACH

Modern threats demand smarter solutions. IntelliSee adds a proactive layer of security to your existing systems, ensuring your organization is protected against the unexpected. From slip-risk prevention to catastrophic event mitigation, IntelliSee ensures you're always one step ahead.

FROM COMMON RISKS TO CATASTROPHIC EVENTS

Proactive Threat Detection & Risk Management at Scale

Only IntelliSee provides the peace of mind knowing your organization is protected against a broad and growing lists of risks and threats via a simple, singular platform:

- One platform, multiple risks, a single, simple fee
- Continually expanding platform
- Complimentary updates & upgrades
- Deep-learning, continually improving AI

SAFETY WITHOUT COMPROMISE

Improve safety without creating new trade-offs:

- No regulatory or ethical concerns
- No anxiety inducing equipment
- No facial recognition or bias
- No PII / PHI or stored footage
